

NZTA VARIATION REQUEST PROCESS, PROCEDURES, AND CHECKLIST

This document:

- outlines the process and procedures to follow when a variation request is needed for either a price level adjustment (PLA) or a cost scope adjustment (CSA) refer to Process
- provides a checklist to use before submitting the *Variation request form* for a PLA or CSA.
- Is a live document for all variation requests

Note:

1. Requests that don't meet these requirements will be returned to the project manager/submitter for remediation and won't be included on the Delegation Committee's agenda until this has been done.
2. Local Government Partnership are responsible for submission of variation forms on behalf of AO's
3. Types of Variations:

Price level adjustment	Cost has varied due to a pricing change (in Material or Labour supply – including Professional Services fees) WITHOUT any change in "scope" of work.
Cost/Scope adjustment	Cost has varied due to a combination of price level and scope of work change.
Cost adjustment	Cost has varied due to contract rate changes or formal review of Estimates (in accordance with SM014).
Scope adjustment	Cost has varied due to change in contract/project scope of works AND the resulting price requires a funding variation i.e. exceeds P50 Estimate & Contingencies.

Roles and Responsibilities

Activity Class Manager (ACM)	Provide input to the Variation request. Confirm priority of the activity under the current NLTP. Able to provide context into the funding environment and the impact to the AC due to the variation.
Business Case Process (BCP) OR Local Government Partnerships (LGP)	Responsible for performing quality assurance (looking at the outcomes of the investment and the optioneering behind the PLA/CSA. Determine the scope aligns with the outcomes or if this needs to be confirmed. Note: LGP are the submitter for AO (Approved Organization) variations
Delegations Committee / Chief Financial Officer (CFO) / Waka Kotahi Board	Endorse/Approve variation
Delegations Secretariat	Include variation on agenda; communicate minutes of meeting (incl. conditions); review/accept conditions
Project Controls (PC)	Assist the Project Manager with the variation request. Ensure that the request meets the requirements.
Project Manager (PM) / Submitter (AO)	Create, develop and submit the variation request (after meeting the requirements submit request through the system). Ensure the variation request has followed the necessary guidelines/manuals for best practice project management quality assurance (i.e. robust costing/estimation).
Project Management Standards (PMS)	Provide guidance for the whole procedure and push request from SAP to TIO (before submission to delegations).
Project Sponsor	Assess and review the variation request. Endorse/Approve variation
Treasury & Cashflow (T&C)	Confirm funding availability; review/accept conditions; release funds.

Business rules

The following business rules apply to all variation (CSA or PLA) requests:

- BR153b Approval of a material project scope change
- BR154b Approval of any increase in project or activity funding
- BR165 Approval of funding condition fulfilment
- BR210 Approval of funding and funding variations for any phase up to \$50m

You can access the [list of delegations](#) attached to these business rules from the [Delegations page](#) on OnRamp.

NZTA Variation request procedures (PLA or CSA)

Below you can find more detail on the procedures within this process that are carried out by Waka Kotahi Project Managers (or by the submitter on behalf of an Approved Organisation).

Note:

1. In this document we refer to the application form as the [Variation request form](#). It is sometimes also referred to as the “PLA application form” or the “Variation: Price level/cost/adjustment application form.”
2. Variations irrespective of value need to follow this procedure/process.
3. The relevant SMO11 Manual should be referenced to adhere to best practice project management quality assurance.

1. Assess the variation (Impact of the change)

Step	Action
1	<p>Assess the allocation change, making sure you consider:</p> <ul style="list-style-type: none"> • The project background • what has led to the price level adjustment (PLA) or cost/scope adjustment (CSA) • reconcile SAP and TIO data (especially the financial and forecast) • what variation to the funding is needed (confirmed with Activity Class Manager, and Treasury & Cashflow) • any additional scope • optioneering around options available (will depend on the scale of the PLA/CSA) • previous decisions and conditions or restrictions as outlined, and reconciled • risks and mitigations • cashflow requirements • whether contingencies have been used, or additional contingencies are needed • lessons learned • next steps. <p>You can find more details about these considerations in the Variation request form.</p>
2	<p>When you've calculated the total additional funding required, ensure you have accounted for any additional internal costs with this figure (for Waka Kotahi, this is excluding the Transport Services administration cost, which is included automatically during the upload to TIO).</p>

2. Enter details into SAP and TIO

Step	Action						
1	<p>Enter the details of the variation request into the SAP Review Screen.</p> <p><u>Note:</u> SAP is only used for Waka Kotahi projects. Approved Organisation (AO) submitters will enter these details into their own system.</p>						
2	<p>To enter the variation request details into TIO:</p> <table border="1"> <thead> <tr> <th>For...</th> <th>do the following...</th> </tr> </thead> <tbody> <tr> <td>Waka Kotahi projects</td> <td>in SAP, adjust the project forecast to reflect the variation amount (Note: TIO adds an additional admin fee, figures in SAP are excluding admin fees)</td> </tr> <tr> <td>variation requests from AOs</td> <td>manually enter the variation details into TIO, inclusive of administration.</td> </tr> </tbody> </table>	For...	do the following... 4. Fill out Variation request form and send to Project Sponsor

Step	Action
1	Fill out the Variation request form , using the figures output by TIO where required (e.g. Cashflow (Y1, Y2, Y3,...); Total project cost including admin, etc.).
2	Upload relevant confirmation e-mails as supporting documents into TIO. <i>Note: In the future state process we should aim to include populating the "lessons learned database".</i>
3	Go through the Variation request checklist (PLA or CSA) on page 11 and make sure you've completed all the requirements.
4	Contact the Project Sponsor to obtain signoff of the variation request.

5. Email Activity Class Manager for priority confirmation/ allocation

Note: This procedure can be completed before or after Project Sponsor signoff is obtained. ACMs and Treasury & Cashflow can be engaged once there is a reasonable degree of certainty with the cash flows.

Step	Action

Make sure you've completed all actions on this checklist before you submit your variation request for inclusion on the Delegations Committee agenda.

Action ✓	
The variation request has been made using the current template: Variation request form	
The variation request is a MS Word document.	
The variation request in the system has been quality checked by Project Control.	
The variation request has been reviewed, endorsed, and signed by the Project Sponsor.	
The variation request outlines any previous Board decision / direction (where applicable).	
<p>The variation request identifies the appropriate activity class. (Consult with an Activity Class Manager to make sure there is provision to accommodate the variation request.) The activity is included in the current NLTP. <u>Note:</u> The activity class must remain the same as original funding request.</p>	
The variation request identifies the entire project costs, as well as the cost for this specific application.
